- ✔ Microsoft Epic on Azure Preferred Partner

Microsoft

Tegria is a Microsoft Epic on Azure Preferred Partner

Market-Leading Cloud Solutions

End-to-End Expertise
As a Microsoft Epic on Azure preferred partner, we support your success every step of the way, from strategic planning through execution and beyond.

Smooth, Secure Data Migrations
With decades of experience securing healthcare data, we plan and execute your data migration without compromising data security or daily operations.

Unmatched Support
Our expert team provides continuous monitoring, management, and support, ensuring your Epic systems run smoothly so you can focus on patient care.

Optimized Processes
We bring unmatched cloud experience to engineer a smooth, seamless migration. Our deep Epic experience helps you avoid unwanted surprises to keep your project on track.

Rationalized Application Portfolio
Prior to migrating data, we can assess and rationalize your application portfolio to ensure optimal performance and help predict and control costs.

Smart Data Archiving
Legacy data shouldn't consume your cloud storage. We leverage Epic-certified data experts to help you plan and execute secure, reliable archival of healthcare data.

AZURE CLOUD DEPLOYMENT SERVICES FOR EPIC

We're Tegria
Created by Healthcare for Healthcare

Tegria is a global healthcare consulting and services company that partners with provider and payer organizations to transform healthcare. Tegria delivers personalized, end-to-end solutions to help our clients drive growth, enhance experiences, foster collaboration, and create a more accessible, efficient, and integrated healthcare system.

Our Proactive Approach to Partnership

We embrace your mission as our own, providing transparent communication and leveraging best practices tailored to your unique methodology. Your success is our success, and we'll work to make the journey enriching, productive, and enjoyable.

You're Unique. So Are We.

Expert Team
Our seasoned cloud engineers and Epic-certified administrators bring an average of 15+ years in healthcare IT to deliver unmatched expertise.

Comprehensive Technical Services
Our services span infrastructure builds, data migration, and data security, ensuring your systems are built and maintained to the highest standards.

Healthcare Cloud Mastery
With extensive experience in healthcare cloud strategy, we create seamless transitions for healthcare technology ecosystems.
