Enhance Patient Experience From Outreach to Billing and Beyond

- 
Clear Cost Visibility
 Tegria ensures the accuracy of cost estimates to enhance financial clarity and decision-making for patients.
- 
Real-Time Eligibility
 Our team ensures accurate patient registration and eligibility verification to streamline intakes.
- 
Efficient Referral Process
 We analyze and streamline your referral processes for more timely and accurate patient transitions.
- 
Reduced Approval Delays
 We expedite prior authorizations to minimize treatment delays and administrative burden.
- 
Centralized Scheduling
 We simplify appointment scheduling for improved patient satisfaction and reduced no-shows.
- 
Better Financial Experiences
 We deploy financial guidance to help patients manage healthcare costs and payment options.

EXPANDED ACCESS

Our Proactive Approach to Partnership

We immerse ourselves in your organization, aligning short-term wins with your long-term vision. Our approach is multifaceted, incorporating governance, development, literacy, and end-user adoption to help you master your data landscape.

You're Unique. So Are We.

Healthcare Focus

With deep expertise in healthcare systems, we address barriers and friction points to improve experiences at every step.

Industry Expertise

Our team is composed of experts in revenue cycle management, clinical charge capture, analytics, and education.

Collaborative Approach

We bridge operations and technology to break down siloes and drive transformation across teams and service lines.

Why Tegria?

With **1,500 healthcare-focused consultants** globally, we've helped **650+ clients** transform healthcare with market-leading solutions as a **top 10 firm** in seven KLAS categories.

KLAS Client Satisfaction Score 90+
Revenue Cycle Optimization

100% of Tegria's Revenue Cycle Optimization clients said they would use our services again

“

Partnering with the team in implementing additional scheduling options for our community was a **great experience**. The partnership allowed us to **augment the strengths** of our own analyst team and **expedite the build** to meet our organization and community needs.”

Alexia Gillen D.O.,
Monument Health

“

We sought out specialists who had implemented this type of standardized operations at other medical centers because we needed **broader expertise** in this realm than what we had internally. We wanted a company that could help us apply **industry best practices** and at the same time come up with solutions that were contextual to UC Davis Health's culture and patient needs.”

Michael Condrin, COO,
Ambulatory Care, UC Davis Health

“

The Tegria assessment was **worth every penny**. Tegria helped us uncover the breaks in the processes, and based on their experiences, what would work well. That translated into our action plan. **It bridged 'what's the problem?' to 'how do we fix it?'**”

Andrew Hart, Director of Corporate
Systems, Lee Health
