

VALUE-BASED CARE + POPULATION HEALTH

Improve Strategy + Drive Performance

Tegria's team of experts implement the necessary technical and operational strategies to manage population health and ensure a smooth transition to alternative payment models.

- ✓ Governance + Strategy Development
- ✓ Care Model Alignment
- ✓ Patient Engagement
- ✓ Performance Monitoring + Improvement
- ✓ Data Aggregation + Application
- ✓ Education + Adoption

Tools and Strategies for Optimized Care and Reimbursement

Improve Quality Metrics

Reduce your care gaps and address payer requirements through the introduction of point-of-care insights.

Accurately Calculate Risk

Enhance your risk stratification capabilities through the ingestion of external data and the implementation of new, advanced scoring models.

Improve HCC Compliance

Capture HCCs more consistently through enhancements to your documentation and claim review strategies.

Enrich Program Insights

Take advantage of new analytics capabilities to examine KPIs like cost, utilization, and quality adherence.

Automate Patient Outreach

Efficiently perform proactive patient outreach with tools designed to streamline the process while prioritizing your work efforts.

Increase Revenue

Boost revenue by identifying and implementing tools and processes designed to reduce costs and increase reimbursement.

VALUE-BASED CARE + POPULATION HEALTH

Our Proactive Approach to Partnership

Organizational Health Checks: We conduct thorough assessments to identify opportunities and prioritize interventions across key areas.

Multifaceted Analysis: Through interviews, observations, system checks, and process reviews, we deliver insights that drive change.

Tailored Solutions: Our focused interventions help organizations plan and execute precise solutions.

You're Unique. So Are We.

Healthcare Specialization

Our sole focus on healthcare ensures that every solution is informed by industry-specific insights and best practices.

Clinical Expertise

Our team includes clinicians and operationally experienced professionals who understand the nuances of healthcare delivery.

Systemwide Engagement

We engage clinicians, care teams, and executive leadership with a strategic perspective that breaks down siloes.

Why Tegria?

With **1,500 healthcare-focused consultants** globally, we've helped **650+ clients** transform healthcare with market-leading solutions as a **top 10 firm** in seven KLAS categories.

Rated a Top Performer by KLAS 2024

Clinical Optimization

100% of Tegria's Clinical Optimization clients said they would use our services again

Their **deep understanding** of healthcare and electronic medical records has established them as a **pivotal partner** in our pursuit of a value-based care delivery model aimed at **improving our community's healthcare services.**
