

# Custom Data + Analytics Solutions for Healthcare

Tegria delivers custom healthcare data and analytics solutions, combining deep technical expertise with mastery of EHR systems to help payers and providers solve business problems, optimize operations, and drive clinical and administrative success.

- ✓ Advisory + Strategic Planning
- ✓ AI-Powered Schedule Optimization
- ✓ Secure AI Chat Solutions
- ✓ Unstructured Data Processing
- ✓ Outsourced Reporting Services
- ✓ Specialty Pharmacy Data Solutions
- ✓ VBC Data Management
- ✓ Provider-to-Payer Clinical Data Solutions
- ✓ Report Optimization
- ✓ Integration of External Data Into EHRs
- ✓ CMS 0057 Compliance Support
- ✓ Modern Data Platform Architecture

## Drive Efficiency and Compliance Across Clinical and Operational Domains

- 
**Align Data Strategy With Business Goals**  
 Tegria's data experts are 100% healthcare focused, with deep EHR knowledge to help organizations solve complex data challenges and meet business objectives.
- 
**Enhance Data Governance and Compliance**  
 With expertise in CMS 0057 compliance and other regulatory frameworks, Tegria ensures healthcare organizations remain compliant while improving data governance and integrity.
- 
**Gain Insights From Unstructured Data**  
 Unlock critical information hidden in free-text data fields through advanced NLP techniques, providing more comprehensive and actionable insights.
- 
**Optimize Provider Utilization**  
 Leverage AI-powered schedule optimization tools to enhance provider utilization, reduce downtime, and improve patient access to care.
- 
**Improve Decision-Making**  
 Tegria's outsourced reporting services improve reporting accuracy and efficiency to deliver timely insights that enable informed decisions and drive better patient outcomes.
- 
**Operate at Peak Efficiency**  
 From standing up modern data platforms to specialty pharmacy data solutions, Tegria helps streamline operations and unlock efficiencies across clinical and administrative workflows.

# Our Proactive Approach to Partnership

**Listen and Understand:** Our process begins with listening carefully to your specific needs, ensuring we understand the data challenges your organization faces.

**Solution Design and Alignment:** We collaborate closely with your stakeholders to design a tailored solution that aligns short-term wins with your long-term business vision.

**Implementation and Ongoing Support:** Once the solution is defined, we implement the technology while offering continuous support to ensure optimal performance, adoption, and long-term success.

## You're Unique. So Are We.

### Deep Healthcare Expertise

Our 100% healthcare focus, combined with certified expertise in Epic, Snowflake, Azure, and more, enables us to deliver highly specialized data and analytics solutions.

### Unparalleled EHR Mastery

We excel at extracting and integrating data from EHR systems like Epic, offering a depth of expertise that few can match in the healthcare space.

### Flexible Engagement Models

Whether through full outsourcing, custom development, or staff augmentation, we offer flexible models to meet the unique needs of each healthcare organization.

### End-to-End Support

From strategy to execution, Tegria provides comprehensive, healthcare-specific data solutions, ensuring success throughout the entire data lifecycle.

### Tegria has exceeded expectations

in modernizing our data platform. The transition to an Azure data lakehouse has been seamless, and the project was completed ahead of schedule. This allowed for additional optimizations and thorough training of our teams. **With Tegria's help, we have a scalable and efficient data infrastructure** that supports our current needs and positions us well for future growth."

Dr. Charlie Sunday, DNP,  
Associate Chief Medical Officer,  
St. Luke's University Health Network

Valleywise Health needed a partner with data-based analytics and governance expertise, as well as specific and deep Epic EHR knowledge to install and operationalize the HEDIS module. **Tegria brought the leadership, technical skills, and experience we needed to manage the implementation from start to finish.**"

Kelly Summers, SVP,  
Chief Information Officer,  
Valleywise Health

## Why Tegria?

We've helped **650+ provider and payer clients** drive transformation.

Our **1,500 healthcare-focused consultants** embrace your goals.

**Ranked in the Top 5 for Data + Analytics**

**100%** of Tegria's Data + Analytics Services clients said they would use our services again
